Re: Weekly Notification of Rule Amendments Pursuant to CFTC Regulation 40.6(d)

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act and CFTC Regulation 40.6(d), QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”) submits this weekly notification of an amendment to the Polymarket US Fee Schedule (the “Amendment”) made effective during the preceding week.

Under the Amendment, no maker rebate will be applied to maker-side fills in combos, and the maker fee for combos will be zero. Because the exclusion applies to whatever maker rebate a Participant would otherwise receive, it will continue to apply if the level or structure of the maker rebate changes, without further amendment to the combo provisions.

The Amendment is adopted pursuant to and in accordance with the Exchange’s fee schedule and applicable provisions of the Polymarket US Rulebook (the “Rulebook”). Polymarket US operates a centralized order book offering fully collateralized contracts. As a registered DCM, the Exchange is committed to maintaining a transparent, reasonable, and non-discriminatory fee structure consistent with the Commodity Exchange Act, as amended (the “CEA”) and Commission regulations. The Exchange retains the discretion to update its fees and rebates as the Exchange evolves, subject to applicable self-certification requirements.

Exhibit A contains the Fee Schedule Amendment, with additions underlined and deletions struck through. Please contact me using the information below if you have any questions regarding this submission.

Sincerely,

/s/ Megan McGrath
Chief Compliance Officer

Exhibit A

(additions underlined, deletions ~~struck through~~)

Combinatoric Contract (combo) maker rebate

Effective on Wednesday, October 7, 2026

$$\text{Fee} = \Theta \times C \times p \times (1 - p)$$

Maker Rebate (combos): $\Theta = 0$. The Maker Rebate coefficient is set to 0 for all combo trades.
