Re: Weekly Notification of Rule Amendment

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act and CFTC Regulation 40.6(d), QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”) submits this weekly notification of an amendment to the Polymarket US Fee Schedule (the “Amendment”) made effective during the preceding week.

Under the Amendment, the taker fee coefficient for table tennis Contracts is increased from $\Theta = +0.0695$ to $\Theta = +0.10$. Under the formula $\text{Fee} = \Theta \times C \times p \times (1 - p)$, the table tennis taker fee is therefore $\text{Fee} = 0.10 \times C \times p \times (1 - p)$, where C is the number of Contracts and p is the trade price. The Amendment changes only the taker fee coefficient for table tennis Contracts and does not amend the taker fee coefficient for other straight trades, maker rebates, taker rebate tiers or block trade fees.

The Amendment is adopted pursuant to and in accordance with the Exchange’s fee schedule and applicable provisions of the Polymarket US Rulebook (the “Rulebook”). Polymarket US operates a centralized order book offering fully collateralized contracts. As a registered DCM, the Exchange is committed to maintaining a transparent, reasonable, and non-discriminatory fee structure consistent with the Commodity Exchange Act, as amended (the “CEA”) and Commission regulations. The Exchange retains the discretion to update its fees and rebates as the Exchange evolves, subject to applicable self-certification requirements.

Exhibit A contains the Fee Schedule Amendment, with additions underlined and deletions struck through. Please contact me using the information below if you have any questions regarding this submission.

Sincerely,

/s/ Megan McGrath
Chief Compliance Officer
Polymarket US

Attachment: Exhibit A

EXHIBIT A
FEE SCHEDULE AMENDMENT
(additions underlined, deletions ~~struck through~~)

1. Table Tennis Contracts

Effective 12:00 a.m. ET on Wednesday, October 7, 2026

Taker fees for table tennis Contracts are calculated using the following formula:

$$\text{Fee} = \Theta \times C \times p \times (1 - p)$$

Where:

- C is the number of Contracts
- p is the trade price (\$0.01 to \$0.99)
- Θ (theta) is the taker fee coefficient

~~Taker Fee: $\Theta = +0.0695$~~

Taker Fee: $\Theta = +0.10$
