CULTURAL CHART RANKING CONTRACTS (CCRC)

Product Name: Will {participant} be ranked {rank} on {chart} for {period}?
Category: Culture
Type: Event Contract

Capitalized terms used, but not defined herein, have the meanings ascribed to them in the Polymarket US ("PMUS") Rulebook. "Contract Terms" means the specific parameters applicable to each Contract available for trading on the Exchange.

Size: Each Contract has a notional size of $1.00. There shall be no orders for transactions at a price less than $0.001 or greater than $0.999.

Minimum Tick: The Minimum Tick size for the Contract shall not be less than $0.001, and not be greater than $0.01.

Position Accountability Level: The Position Accountability Level shall be $25,000 of notional exposure.

Position Limits: No position limits apply.

Margin: Margin is 100% of the at-risk amount.

Issuance: The Contract is based on a specific chart ranking event. Contracts may be listed by the Exchange at any time after the relevant chart or ranking event is made public. Contract iterations will be issued on an as-needed basis at the discretion of the Exchange.

Underlying: The Underlying for each Contract is the official ranking of {participant} on {chart} as published by the Source Agency for {period}.

- Rankings are determined according to the methodology of the specified {chart} as published by the Source Agency. The Underlying specifically encompasses the following types of chart or ranking publications:
    - **Music Streaming Charts:** rankings based on number of streams on a specified platform (e.g., Spotify, Apple Music, Amazon Music) during the specified period;
    - **Music Sales and Airplay Charts:** rankings based on digital sales, physical sales, radio airplay impressions, or a weighted combination thereof (e.g., Billboard Hot 100, UK Singles Chart, ARIA Charts);
    - **Video Streaming Charts**: rankings based on number of views, hours viewed, or subscriber engagement on a specified platform (e.g., Netflix, Disney+, YouTube) during the specified period;
    - **Box Office Charts**: rankings based on domestic or worldwide theatrical gross revenue during the specified period (e.g., weekly domestic box office rankings published by Box Office Mojo, The Numbers, or studio-reported actuals);
    - **Podcast Charts**: rankings based on listener counts, downloads, or platform-specific metrics on a specified platform (e.g., Spotify, Apple Podcasts) during the specified period;
    - **Social Media Trending Charts**: rankings based on engagement, mentions, views, or platform-defined trending metrics on a specified platform during the specified period; and
    - **Other Cultural Rankings**: any other officially published ranking by an identified Source Agency measuring cultural consumption, popularity, or critical recognition, as specified in the Contract Terms (e.g., institutional rankings (e.g., US News Best Colleges), wealth rankings (e.g., Forbes 400, Bloomberg Billionaires Index), corporate rankings (e.g., Fortune 500, Inc. 5000), product or brand rankings, and general-purpose published rankings).
- Any instructional examples set forth in these Rules or in the Contract Terms are provided for convenience only, are non-exhaustive, and are not intended to limit the scope of the applicable definitions or criteria.

Parameter Definitions:

- **{participant}** refers to the specific entity whose ranking on {chart} is the subject of the Contract, as specified by the Exchange. This may include, but is not limited to: a song, single, or track identified by title and artist; an album or EP identified by title and artist; an artist, band, or musical act; a film or theatrical release; a television series or streaming title; a podcast; an individual; a company or organization; an educational institution; a geographic location (e.g.,

country, state, city); a product or brand; or any other entity eligible for ranking on the specified {chart}. If multiple versions, variants, or alias credits of the same entity exist, only the exact specification in the Contract Terms will be used for settlement purposes.

- **{rank}** refers to the specific ranking position or threshold that {participant} must achieve on {chart} for {period}, as specified by the Exchange. This may be expressed as a specific ordinal position (e.g., "#1," "#2," "#5"), a threshold range (e.g., "top 5," "top 10," "top 40"), or a relative position.
- **{chart}** refers to the specific cultural ranking chart or ranking system on which {rank} is observed, as specified by the Exchange, including the identity of the chart provider, the name of the specific chart, and, where applicable, the geographic market or platform scope of the chart (e.g., "Spotify Global Daily Top Songs Chart," "Billboard Hot 100," "Netflix Global English-Language Films Top 10").
- **{period}** refers to the specific date, time, or measurement period for which the chart ranking is observed, as specified by the Exchange. This may be a specific calendar date, a specific week or month, or a specific chart publication date. The relevant ranking is the first officially published ranking for the specified {period}.

Source Agencies:

- The Source Agencies are, in hierarchical order:
  - **Primary Sources:** the official publication, database, or API of the specified {chart} provider (e.g., Spotify Charts at charts.spotify.com; the Billboard charts as published at billboard.com; Netflix Top 10 as published at netflix.com/tudum/top10; Box Office Mojo as published at boxofficemojo.com; Apple Music charts as published at music.apple.com; or the equivalent official channel of the specified ranking provider).
  - **Secondary Sources:** official press releases, investor relations disclosures, or data reports published by the Source Agency confirming the ranking; licensed data distributors or analytics providers that receive data directly from the Source Agency under an official data-sharing agreement; and, for music charts, the Recording Industry Association of America (RIAA), BPI, or equivalent national recording industry body.
  - **Tertiary Sources:** major industry publications relevant to the specified {chart}, including but not limited to Billboard, Variety, The Hollywood Reporter, Rolling Stone, Music Week, Pitchfork, Deadline, Box Office Pro, Forbes, Fortune, Bloomberg, The New York Times, The Wall Street Journal, Financial Times, and U.S. News & World Report, along with the official social media and communications channels of the Source Agency provider.
- The Exchange may designate additional or substitute Source Agencies. All instructions on how to access the Underlying data via each designated Source Agency will be made available to market participants.
- The Source Agency hierarchy is designed to produce reliable, publicly verifiable settlement data that is resistant to manipulation or premature disclosure.

Expiration Date and Time: Unless otherwise provided in the Payout Criterion, the Expiration Date shall be the earlier of: (i) the calendar day of the first official publication by the Source Agency of the ranking for {period}; or (ii) two weeks after the scheduled publication date if no such publication has occurred; or (iii) the date specified in the Contract Terms. The Expiration Time shall be 11:59:59 PM ET on the Expiration Date, or such other time as specified in the Contract Terms.

Last Trading Date and Time: The Last Trading Date and Time shall be the same date and time as the Expiration Date and Time.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Contract Outcome Review Process is initiated.

Payout Criterion and Settlement

- Contracts pay out if the Payout Criterion is met. The Payout Criterion for the Contract is met if {participant} achieves {rank} on {chart} for {period} as determined by the first officially published ranking from the Source Agency.
- For purposes of the Payout Criterion:
  - **Achievement of Rank:** {participant} achieves {rank} when the Source Agency's official publication for {period} lists {participant} at or within the specified position or range. Revisions, corrections, or updates issued after the Expiration Date do not affect settlement.
  - **Chart Methodology:** Rankings are determined according to the measurement methodology of the specified {chart} as published by the Source Agency.
- The following rules govern resolution in special circumstances:
  - **Early Release:** Should the Source Agency release the relevant data for {period} earlier than the scheduled date, the Expiration Date will be amended to the calendar day of the early release date.

    - **Delayed Publication:** If the Source Agency does not publish the ranking for {period} on the scheduled date, settlement will be based on the first value reported for {period} by the Source Agency before the Expiration Date.
    - **Ties:** If multiple items tie for {rank} as published by the Source Agency, all tied {participant}s are deemed to have achieved {rank}. If the Source Agency's tie-breaking methodology produces a single winner, that methodology governs. If not, Contracts for each tied {participant} will settle so that holders receive $1.00 divided by the number of tied {participant}s, rounded down to the nearest tick. If a tie causes a rank to be skipped (e.g., two items tie for #1 and the next listed rank is #3), a Contract on #2 settles at $0.00.
    - **Cancellation:** If the Source Agency permanently discontinues the specified {chart} before the Expiration Date, the Exchange may, in its sole discretion, substitute an alternative Source Agency publishing equivalent rankings, or initiate the Contract Outcome Review Process.
    - **Final Settlements:** Once an outcome has been determined by the Exchange in accordance with the objective criteria set forth herein, such determination shall be final and shall not be subject to appeal or revision for purposes of settlement.
- In the event of a dispute as to whether the Payout Criterion has been met, the Exchange shall resolve such dispute in accordance with the procedures set forth in the PMUS Rulebook.
- The Source Agency hierarchy is designed to produce reliable, publicly verifiable settlement data that is resistant to manipulation or premature disclosure.

Example: E.g., "Will 'APT.' by ROSÉ and Bruno Mars rank #1 on the Billboard Hot 100 for the week ending March 29, 2026?" would settle as $1.00 if "APT." by ROSÉ and Bruno Mars is listed at #1 in Billboard's first official publication of the Hot 100 for the week ending March 29, 2026, and $0.00 otherwise.

Additional Settlement Contingencies:

- Before settlement, the Exchange may, at its sole discretion, initiate the Contract Outcome Review Process pursuant to the PMUS Rulebook to resolve ambiguous or disputed outcomes.
- The Exchange will publicly identify the Source Agency as the key source of settlement data for each Contract, while retaining the right to apply the Source Agency hierarchy as defined herein.

Eligibility: In addition to the general prohibition against trading on material nonpublic information in violation of a pre-existing duty, the Exchange will institute additional prohibitions for trading the Contract. Persons under 18 years of age are not permitted to create Polymarket US accounts. The following individuals will be prohibited from trading:

- Current and former employees of the designated Source Agency or chart provider responsible for compiling or publishing {chart} with access to pre-publication ranking data;
- Current and former employees of data analytics providers, licensed data distributors, or measurement companies that supply underlying data (e.g., streaming counts, sales figures, viewership data) to the Source Agency prior to official publication;
- Paid employees of and participants in the organization responsible for the event;
- Ultimate beneficial owners of entities with advance access to pre-publication ranking data from the designated Source Agency; and
- Household members and immediate family of all above.

Clarifications: Before Settlement, the Exchange may, at its sole discretion, initiate the Contract Outcome Review Process. If any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, the Exchange retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Payout Criterion and Contract specifications after the first day of trading.
